1971 Compendium of State Regulatory/Policy Making Bodies Charged with Water Pollution Control Responsibilities

The recent past has been marked by significant steps taken in a number of States to strengthen water pollution control and other environmental protection programs through reorganization of State agencies responsible for environmental program administration.

These reorganizations have generally resulted in consolidation of environmental functions, for the purpose of enabling the State in which reorganization has occurred, to more effectively cope with the myriad problems and challenges which inhere in environmental control missions. This compendium has been prepared to provide State and local governments, non-government entities and others interested in water pollution control programs, insight into the means, organizational and programmatic, which have been adopted by the several States, possessions and territories throughout the Nation to achieve environmental goals.

Specifically, this compendium identifies the policy making/regulatory bodies in each State, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands with water pollution control responsibilities. The compendium's format follows the uniform Federal regional configuration (Regions 1-10). The States located within each such region are listed alphabetically. Each listing sets forth the composition of the agency (or agencies) of each State charged with administration of that State's water pollution control program and outlines its significant policy making and/or regulatory responsibilities.

Reproduced by
NATIONAL TECHNICAL
INFORMATION SERVICE
U S Department of Commerce
Springfield VA 22151

Also reflected are (1) the composition and membership of the principal boards or commissions having water pollution control responsibilities, (2) addresses of the members of such bodies and of other key administrators, and (3) appropriate statutory references. Information on other State agencies performing functions which interrelate with more direct water pollution control functions is also provided in synopsis form. Finally, an appropriate organization chart is included for each State to further facilitate an identification of the principal agencies with responsibilities in this area, and an understanding of the interaction between their component organizations.

Immediately following this preface and indices are a series of tables which reflect the current general character of State water pollution control agencies, and, where applicable, the use of commissions or boards in performance of State programs in this area. Generally, such agencies including those in territories and possessions, may be classified as follows:

12 EPA-type agencies
9 Natural Resource-type agencies
23 Health-type agencies
10 Other

Within the foregoing total, 34 States, etc., presently employ a commission or board and similar organizational vehicles to administer water pollution and allied environmental control programs.

Information for this compendium has been developed from a number of sources including the annual State programs submitted to the Environmental Protection Agency pursuant to Section 7 of the Federal Water Pollution

Control Act, as amended, State legislation enacted to the date of publication, and from information otherwise elicited from Environmental Protection Agency regional offices and State agencies directly, in resolve of certain details, particularly as to the identification and addresses of certain agency or board, etc. officials.

Since the information is based upon statutes and regulations subject to change and interpretations thereof, the Office of Intergovernmental Programs, Environmental Protection Agency, solicits comments upon the data and information of this compendium in the interest of developing a document which is both current and useful as a reference.

Nicholas M. Golubin

*EPA TYPE: Agencies combining water, air, and possibly other environmental protection programs but not exercising significant natural resource management or traditional medical health protection functions.

NATURAL RESOURCES TYPE: Agencies combining water pollution control function (and possibly other environmental protection programs) with significant natural resources management functions.

HEALTH TYPE: Agencies combining water pollution control function (and possibly other environmental protection programs) with traditional medical health protection functions.

OTHER: Agencies specializing predominantly in the control of water pollution (and possibly some water resources management).

CONNECTICUT

A. POLICY MAKING/REGULATORY AGENCY

1. Department of Environmental Protection
   Commissioner of Environmental Protection
   (Connecticut Water Resources Commission
   dissolved, October 1, 1971)

B. AGENCY RESPONSIBILITY

1. Department of Environmental Protection
   - (a) Environmental quality standards adoption and enforcement
   - (b) Discharge permits-issuance authority
   - (c) Comprehensive environmental protection plan development
   - (d) Pesticides control
   - (e) Solid waste disposal regulatory authority
   - (f) Pollution control program grants administration
   - (g) Standards adoption for mining extraction, excavation or removal of earth materials

C. STATUTORY REFERENCE

Public Act 872, Laws 1971, H.B. 9254, approved June 25, 1971 (eff. 7/1/71)

D. OFFICIALS

Daniel W. Luskin, Commissioner
Department of Environmental Protection
State Office Building, Room 539
Hartford, Connecticut 06115
PHONE: 203-566-4252

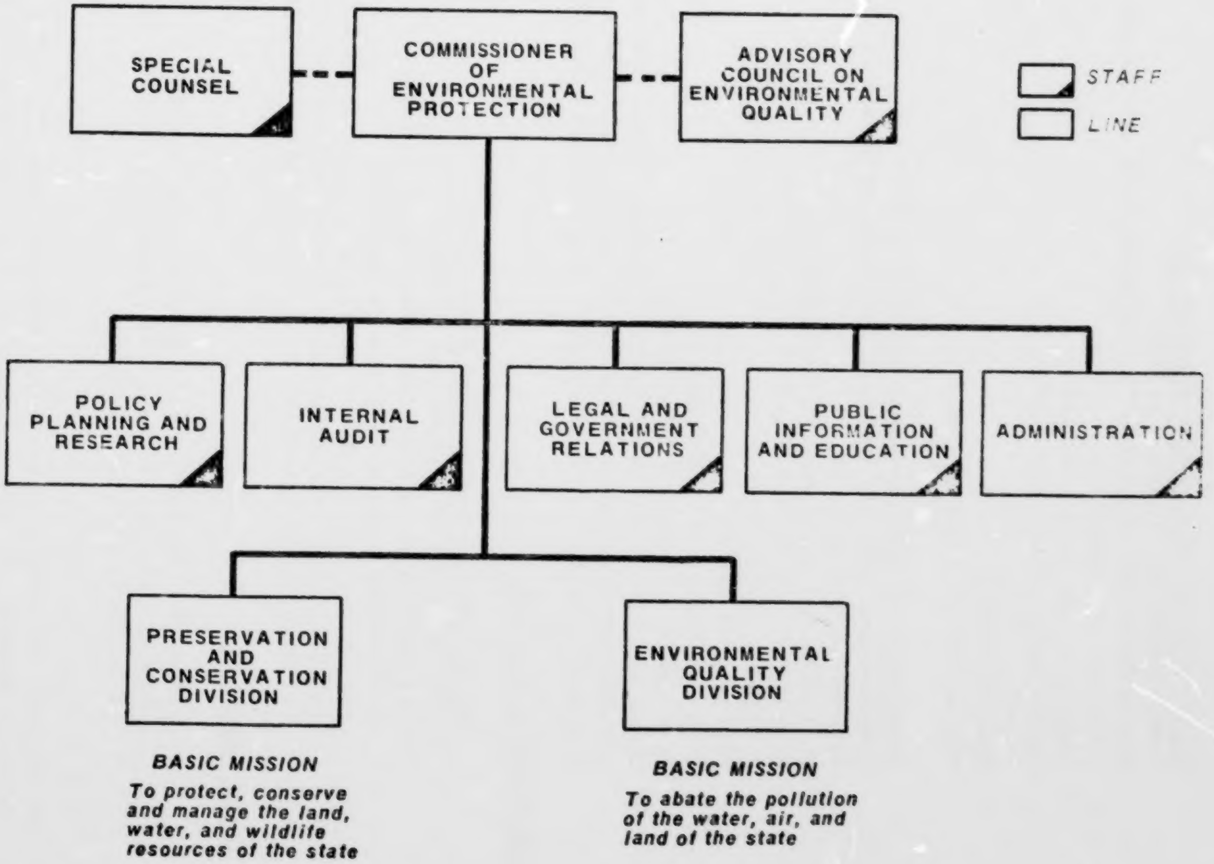
E. OTHER AGENCIES AND RELATED FUNCTIONS

Five Mile River Commission

Interstate Sanitation Commission
(Connecticut, New York, New Jersey)
Control and abatement of pollution of the harbor of New York and the coastal and tidal waters.

New England Interstate Water Pollution Compact
(Connecticut, Maine, New Hampshire, Massachusetts, Rhode Island and Vermont)

STATE OF CONNECTICUT
DEPARTMENT OF ENVIRONMENTAL PROTECTION



SPECIAL COUNSEL
COMMISSIONER OF ENVIRONMENTAL PROTECTION
ADVISORY COUNCIL ON ENVIRONMENTAL QUALITY
STAFF
LINE
POLICY PLANNING AND RESEARCH
INTERNAL AUDIT
LEGAL AND GOVERNMENT RELATIONS

ADMINISTRATION
PRESERVATION AND CONSERVATION DIVISION
ENVIRONMENTAL QUALITY DIVISION
BASIC MISSION
To protect, conserve and manage the land, water, and wildlife resources of the state
BASIC MISSION
To abate the pollution of the water, air, and land of the state

MAINE

A. POLICY MAKING/REGULATORY AGENCY

Environmental Improvement Commission
Commissioner of Health & Welfare
Ten members (Gubernatorially appointed with advice and consent of Council):
Manufacturing interests (two)
Conservation interests (two)
General Public (two)
Municipalities (two)
Air pollution experts (two)

Department of Environmental Protection *
Commissioner (Gubernatorially appointed with advice and consent of the Council)
Environmental Improvement Commission
Board of Pesticides Control
Wetlands Control Board
Mining Commission
Land Use Regulatory Commission
Pest Control Compact Administrator
Board of Certification of Water Treatment Plant Operators
New England Interstate Water Pollution Control Commission
Division of Sanitary Engineering, Department of Health

B. AGENCY RESPONSIBILITIES

Environmental Improvement Commission
(a) Water quality standards adoption
(b) Pollution control law enforcement authority
(c) Discharge permits-issuance authority
(d) Sewage and treatment facilities approval authority
(e) Pollution control program grants administration
(f) Regulatory authority over oil terminal facilities and vessels

C. STATUTORY REFERENCE

Title 38, Chapter 3, R.S. of Maine, as amended by Chapter 572, Public Laws 1970 (2/5/70); Chapter 256, P. L. 1971, S.B. 311 (5/5/71)

* (SB 638, Chapter 489, Public Laws 1971, approved June 23, 1971) Organizational details for the new Department will be proposed by the Joint Select Special Committee of the Legislature on Governmental Reorganization for further legislative action. Expected to be operational in 1972.

D. OFFICIALS

William R. Adams, Director
Environmental Improvement Commission
State House
Augusta, Maine 04330
PHONE: 207-289-2591

Llewellyn Colony - Hallowell
Norman T. Gleason - Fort Fairfield
Merle F. Goff - Bangor
Curtis Hutchins - New York
Evelyn Jephson - Waldoboro
Edgar W. Thomas - Sebago Lake
Charles Wyman - Lisbon Falls
Orlando Delogu - Portland
Jean Charles - 166 Deacon St., Portland

E. OTHER AGENCIES AND RELATED FUNCTIONS

State Pesticides Control Board
Concerned with the regulation of pesticide use regulatory authority over contract spraying

Department of Inland Fisheries and Game
Water management for support of animals, fish and other aquatic life.

Department of Sea and Shore Fisheries
Marine fisheries and shellfish sanitation program management.

Wetlands Control Board
Regulates the filling of tidal marshes of Maine's shoreline to protect this resource for aquatic life and waterfowl.

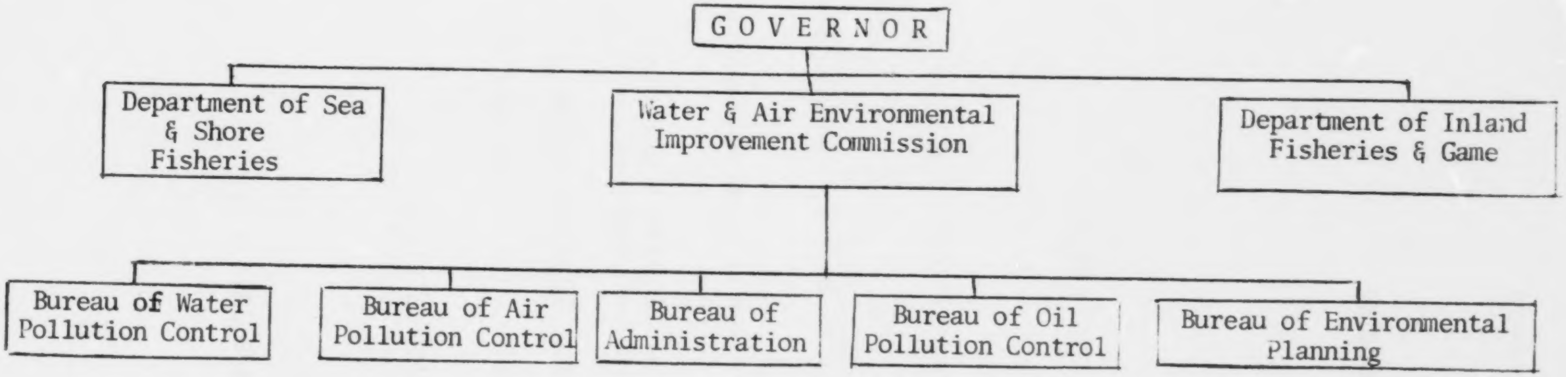
Governor's Interdepartmental Task Force Committee on Water and Related Land Resources
Auxillary planning and programming agency for development of water and related land resources.

New England Interstate Pollution Control Compact
(New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, and New York)

Maine Land Use Regulation Commission

Saco River Environmental Advisory Committee

MAINE WATER & AIR ENVIRONMENTAL IMPROVEMENT COMMISSION



GOVERNOR
Department of Sea & Shore Fisheries
Water & Air Environmental Improvement Commission
Department of Inland Fisheries & Game
Bureau of Water Pollution Control
Bureau of Air Pollution Control
Bureau of Administration
Bureau of Oil Pollution Control
Bureau of Environmental Planning

Planning & Grants Division

mmends, reviews, and processes Federal/State
ruction Grants; develops metropolitan/regional
asin water quality management plans; prepares
information on Board's activities; and develops
arries out an education program in water pollution.

Technical Services Division

Collects and analyses stream and waste samples; collects other data and prepares reports and performs all other services (technical and other) needed by Pollution Abatement and Enforcement Division. The Hazard Alert Team (HAT) makes immediate inspections of pollution complaints on a 24 hour daily basis.

Pollution Abatement Division

Responsibilities include negotiations with owners to secure correction of pollutional discharges, review of approval of wastewater treatment plans, surveillance of wastewater treatment facilities, and training of treatment plant operators.

Enforcement Division

Plans and Coordinates water quality standa
surveillance network, comprehensive River B
studies, and legal activities. Maintain automated d
processing system. Has liason responsibility with S
and Federal Agencies.

   Director
   - Division of Water Pollution Control
   - Division of Solid Waste Control
   - Division of Air Pollution Control

2. Environmental Control Council
   Sixteen members (Gubernatorially-appointed with State legislature's consent) - Four year terms
   - Food products
   - Conservation
   - Agricultural processing
   - Automotive or petroleum
   - Chemicals
   - Heavy industry
   - Power
   - Agriculture
   - Labor
   - Engineer
   - Physician
   - County
   - Municipal (two)
   - Livestock
   - At large

B. AGENCY RESPONSIBILITY

* 1. Department of Environmental Control
   (a) Pollution control program grants administration
   (b) Comprehensive pollution control plans development
   (c) Discharge permits-issuance authority
   (d) Pollution control enforcement authority

2. Environmental Control Council
   (a) Water and air quality standards adoption and enforcement
   (b) Discharge permits-revocation authority
   (c) Pollutant sources classification

C. STATUTORY REFERENCE

Legislative Bill No.939, approved May 26, 1971 appears to contain certain inconsistencies as regards certain authority of the Department and the Council, especially in the areas of permits issuance and standards adoption. It is believed, however, that the Council is the policy making body, and the Department, the administrative and operating entity for pollution control.

* Lacks authority under § 29 of the State Act with respect to "air contamination existing solely within commercial and industrial plants, works or shops or private property appurtenant thereto"

E. OTHER AGENCIES AND RELATED FUNCTIONS

Office of Environmental Quality Control

Advisory board as to all matters relating to environmental quality; coordinating body for State departments/agencies which have pollution abatement responsibilities

Department of Transportation

Regulatory agency to prevent the disposal into the waters of the State of garbage and other substances liable to make the waters unsightly, unhealthful, or unclean and to prevent the escape of oil into such waters from vessels and from pipes. Reviews dredging permits for their effects upon water quality standards.

Department of Land and Natural Resources

Control over ground disposal sites

Fish and Game Division

Investigation of fish kills; interacts with the Department of Health in the establishment and preservation of class AA waters

Committee on Ecology, Environment, and Recreation

To investigate environmental issues concerning air, water, noise, and solid waste

Waste Advisory Council (Department of Health)

Recommendatory body as to waste disposal program funds allocation
Coordinates waste management planning
